

getStep

```
graph LR; A["amici::SteadystateProblem  
::applyNewtonMethod"] --> B[getStep];
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'getStep'. The box on the right is white and contains the text 'amici::SteadystateProblem' on the top line and '::applyNewtonMethod' on the bottom line. A dark blue arrow points from the right side of the white box to the right side of the gray box.

amici::SteadystateProblem  
::applyNewtonMethod
